SUMMARY

Computer Science undergraduate at VIT Chennai with hands-on experience in software engineering, data-driven projects, and SQL-based analysis. Translates complex requirements into robust system components, effectively communicating findings to technical and non-technical stakeholders. Seeking Software Engineering, Data Analytics/Analyst, and Consulting roles.

SKILLS

Technical Skills: Python, Java, C/C++, JavaScript, SQL, NoSQL, VS Code, Git & GitHub.

Analytical Skills: Data Analysis, Data Interpretation, Data Cleaning, Data Visualization, Research, Problem Solving, Structured Thinking, Critical Thinking, Microsoft Excel, Microsoft PowerPoint, Effective Communication and Presentation.

CS Fundamentals: Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, Computer Networks, Computer Architecture, Cybersecurity Fundamentals, Software Engineering.

EXPERIENCE & LEADERSHIP

Software & IT Intern May 2026 – Jul 2026
BAI × The Meera

- Delivered a production-ready hospitality platform usable across device sizes by mapping user requirements into content structure, UI components in Next.js, and standardized layouts with Tailwind CSS.

Java Developer Intern May 2025 – Jun 2025
Navodita Infotech

- Built a quiz management system covering authentication, quiz workflows, notes, and feedback modules using Java Spring Boot and structured relational data schemas in SQL.

Vice-Chairperson & Member Apr 2024 – Apr 2026
Android Club, VIT Chennai

- Grew engagement across a 120+ member technical community by planning a workshop and event calendar spanning Android development, UI/UX, and web development, coordinating execution teams.
- Spearheaded Hack-N-Droid for 500+ participants across Tamil Nadu, drove 350+ registrations for Pitchathon, and managed event logistics for CodeVolt (400+ participants).

PROJECTS

VeriGraph: Privacy-Preserving Cross-Institution Fraud Detection

- Designed a privacy-constrained pipeline enabling banks to detect synthetic identity fraud rings without sharing raw customer data; represented match confidence via graph edge weights on a custom synthetic benchmark dataset (*Veridia*).

AutoMetrics: Automotive Sales Analytics

- Built an analytics solution evaluating automotive sales, customer profiles, and dealership data to identify sales trends and product performance; structured workflows to generate actionable business KPIs and interactive dashboards.

Adaptense: Context-Aware Learning Analytics

- Developed a context-aware gesture interaction framework for virtual learning using Unity and MediaPipe for real-time hand tracking. Structured contextual signals (gesture confidence, task stage, interaction history) to analyze user behavior.

EDUCATION

Vellore Institute of Technology, Chennai 2023 – 2027
B.Tech in Computer Science Engineering - **CGPA:** 8.68 / 10

Indore International School, Indore 2022 – 2023
CBSE Class XII (PCM) - **Percentage:** 81.2%

Keshav International School, Jhabua 2020 – 2021
CBSE Class X - **Percentage:** 90.6%

CERTIFICATIONS

- IBM Cybersecurity Analyst
- AWS Certified Cloud Practitioner
- Oracle AI Database SQL Certified Associate
