Summary

Computer Science Engineering undergraduate at VIT Chennai with internship experience in software development and proven leadership in technical communities. Recognized for quickly adapting to new technologies, collaborating effectively in team environments and taking ownership of projects from ideation to implementation. Eager to contribute to challenging software engineering roles while continuously learning and delivering practical, high-quality solutions.

Education

Vellore Institute of Technology, Chennai, B.Tech in Computer Science Engineering
- CGPA: **8.68/10.0**

Indore International School, Indore, CBSE 12th Standard
- Percentage: **81.2%**

Keshav International School, Jhabua, CBSE 10th Standard
- Percentage: **90.6%**

Work Experience & Leadership

Software/IT Intern, BAI × The Meera
- Developed a hospitality platform using Next.js and Tailwind CSS with a focus on responsive design and user experience.

Java Developer Intern, Navodita Infotech
- Built a quiz management system using Java Spring Boot, HTML/CSS and AI, featuring notes and feedback modules.

Vice-Chairperson, Android Club - VIT Chennai
- Led a 120+ member community by organizing workshops & events on Android Development, UI/UX and Web Development.

Hackathons, Organizer & Volunteer
- Organized Hack-N-Droid, the flagship Android Club hackathon, for 500+ participants across Tamil Nadu.
- Led promotions for Pitchathon (350+ registrations) and managed registrations for CodeVolt (400+ participants) while serving as a core organizing volunteer across multiple hackathons.

Projects

VeriGraph: Privacy-preserving framework for cross-institution fraud detection using confidence-aware record linkage and graph learning. Designed a synthetic multi-institution financial benchmark with controlled data noise, fraud injection and evaluation-only ground truth, supporting confidence-weighted graph construction and federated learning mechanisms.
Adaptense: Context-aware gesture interaction framework for virtual learning using computer vision. Designed a Unity-based learning environment integrating MediaPipe hand tracking to recognize gestures and adapt interactions using contextual signals such as gesture confidence, failed attempts, task stage and user interaction history.
Quizeria: Web-based quiz management system for creating, managing and attempting quizzes through a structured user interface. Built using Java Spring Boot and Thymeleaf with user authentication, role-based access, quiz management, notes and feedback features.

Certifications

Oracle AI Database SQL Certified Associate: Database fundamentals, SQL querying and Oracle AI database concepts.
IBM Cybersecurity Analyst Certification: Core concepts of cybersecurity, network security, and incident response.
AWS Certified Cloud Practitioner: Fundamentals of AWS Cloud & Services with AWS Well-Architected Framework.
NPTEL Certifications: Wildlife Ecology, Conservation Economics, and Education for Sustainable Development.

Skills

Technical Skills: Python, Java, C/C++, JavaScript, SQL, NoSQL, React, Next.js, Tailwind CSS, AWS, Git & GitHub.
Computer Science Fundamentals: Data Structures & Algorithms, Database Management Systems, Operating Systems, Object Oriented Programming, Computer Networks, Software Engineering, Cybersecurity basics, Computer Architecture & Organisation.
Soft Skills: Problem-Solving, Time Management, Critical Thinking, Adaptability, Team Collaboration & Effective Communication.
